PAUL SMITH
Earthmoving

Specialising in Residential Construction

30+ years of Residential construction experience means you're getting the best practical advice and/or management for your project.

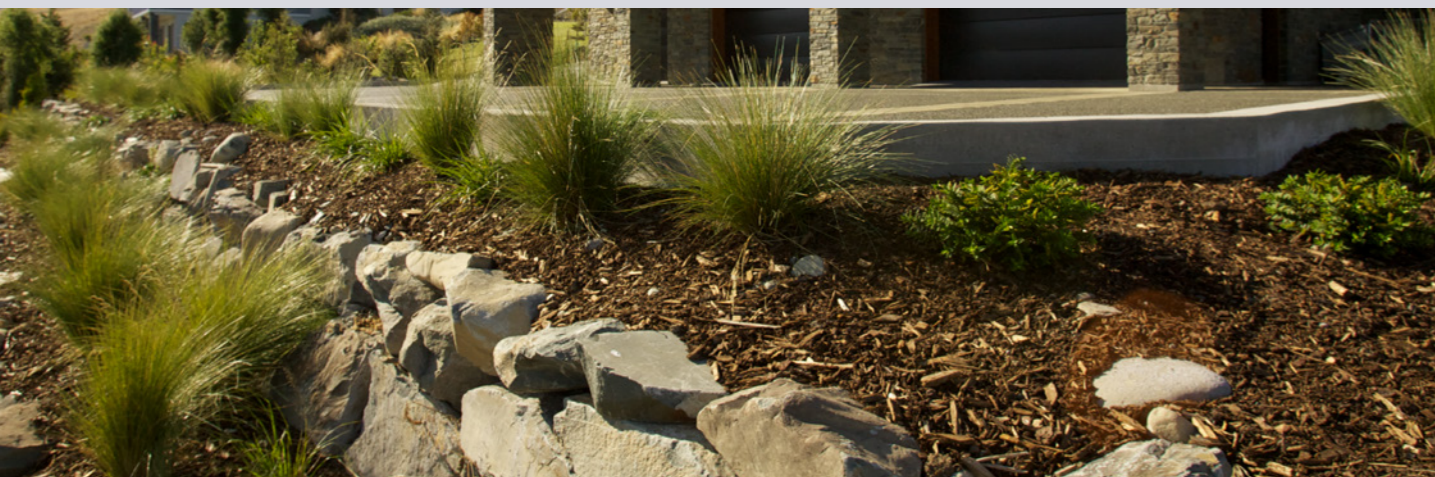

Our services range from dealing with local authority regulations, to managing your project, to demolition and underground utility installations. We've delivered everything from private builds to large subdivisions works throughout New Zealand. Whatever the size of the build, we're here to help you get the best outcome to suit your budget.

Services we provide for our clients include site clearance and demolition, house foundations, landscaping, rock retaining walls, tennis courts, driveways, drainlaying, local authority water connections, road construction, farm lane construction and maintenance, water retention ponds, dairy conversions and forestry work.

Paul Smith Earthmoving are approved contractors to the Timaru District Council, Ashburton District Council, Waitaki District Council, Selwyn District Council, Accredited Water Reticulation service persons to Christchurch City Council and are Prequalified Contractors for the New Zealand Transport Agency.

Our mission is to deliver innovative earthworks solutions through customer driven staff and technically advanced plant.
