

Health & Safety Policy

As a family-owned company, we are committed to ensuring that we provide our staff, contractors, and visitors with a safe and healthy working environment, enabling the prevention of work-related injuries and ill-health.

We will:

- Comply with all legal and regulatory requirements including the Health and Safety at Work Act (2015), associated regulations, Code of Practices, and industry best practice
 - Promote a positive safety culture with all leaders modelling expected behaviours
- Actively identify hazards which may impact health, safety and wellness and implement appropriate controls to eliminate or minimise the associated risk as far as reasonably practicable
- Ensure all staff, contractors, and visitors, understand the role they play in ensuring a safe and healthy work environment and empower them to stop unsafe work practices
 - Identify objectives and targets to measure and monitor progress on our health and safety journey
- Facilitate and support worker participation in improving health, safety, and wellness practices across the business
 - Ensure health, safety and wellness is considered in all decision making
- Commit the required resources to maintain and continuously improve our safety management system

“Safety first”
